

Milestone 3: Timeline

Group 21

Deadlines

Sunday, November 5:

1. **Nicole:** Finish starting GUI (have any sort of GUI working e.g., page with hello world).
2. **Ethan:** Finish starting database (have some sort of Oracle database).
3. **Winnie:** Finish creating all table entries to be used in the database.

Sunday, November 12:

1. **Nicole:** Finish a draft version of the first application page.
2. **Ethan:** Have the backend set up.
3. **Winnie:** Finish design (not implementation) of how the whole GUI will look like.

Sunday, November 19:

1. **Nicole:** Finish rough version of all application pages.
2. **Ethan:** Finish integrating the major backend and frontend components.
3. **Winnie:** Create half of the queries required for Milestone 4; help with the GUI and backend.

Sunday, November 26:

1. **Nicole:** Finish all major components of the GUI. Should be close to complete.
2. **Ethan:** Finish most backend logic and integration. Every important thing is done.
3. **Winnie:** Finish all required queries; help with the GUI and backend as needed.

Thursday, November 30:

1. **Everyone:** Finish debugging and double-checking everything. Submit.
